REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Chesterfield:

I herewith submit my second annual report as Superintendent of Schools.

TEACHERS

We were fortunate this year in having only one change in our teaching force. Mrs. Imogene Chickering resigned her position in charge of the upper grades at Chesterfield Village and Miss Marion Stanton a graduate of Keene Normal School took her place.

The following table gives the organization of the schools for the year 1926-1927.

	Pupils
Chesterfield Primary, Miss Dorothy Barrett,	12
Chesterfield Advanced, Miss Marion Stanton,	14
Spofford Primary, Miss Agnes Kane,	15
Spofford Advanced, Miss Myra Blackington,	21
West Chesterfield, Miss Minnie Marshall,	20

I take pleasure in reporting that there has been throughout the year a fine spirit of cooperation toward maintaining better schools in Chesterfield by the School Board, teachers and parents.

NOON LUNCH

Because so many children in Chesterfield live at a distance from the school house a large number have to carry lunch to school. The teachers with the help of some of the older girls have served a hot food or drink during the winter months to supplement what is brought from home. In most cases the material for the hot dish such as cocoa, corn, potatoes, milk or other food has been brought by the children. At Spofford

$25 was raised through an entertainment and used for noon lunches.

I believe it is very desirable to have in every class room where a noon lunch is served a kitchen unit consisting of a sink, shelf and a cupboard with doors. There has been installed at Spofford this year a very efficient little unit of this type. I hope that soon such an arrangement can be made in the other two school houses.

TRANSPORTATION

The law regarding transportation of pupils states that if a child lives two miles or more from the school house he shall be transported at the expense of the district. It has been customary in Chesterfield to require any child under the two mile limit to walk to school or ride at his own expense.

Obviously, during the severe part of the winter to ask our young children to walk from 1½ to 2 miles in order to reach school is an unsatisfactory state of affairs. I believe there have been a few children this winter who might well have been transported.

Having in mind the fact that the law charges the School Board to furnish "as nearly equal advantages as practicable" I should recommend that a sum of money be put at the disposal of the School Board with which to transport cretain pupils who live less than two miles from the school house during the worst of the winter.

HEALTH

I am continually impressed with the important part the health of the school child plays in his school work. His physical well being is, I believe, one of the fundamental things we must endeavor to improve in order to bring the work of the pupils up to a higher standard.

School and home should cooperate in doing more to safeguard the health of our children, not only to keep the children free from disease but to foster health habits and impart health

knowledge so that they will have an abundance of energy and vigor which will be a foundation for good school work.

There was an attempt made last year to raise money for a School Nurse who would spend her entire time caring for the children in the Walpole Union. This movement was started too late to be discussed at the Chesterfield School Meeting. The other towns all raised money for this purpose although as it turned out Walpole's vote was illegal and the money could not be used. In order to have such a full time nurse all four towns must agree at the same time and this is rather difficult. Such a school nurse would be of great value in our schools, I believe.

BUILDINGS

During the year blackboards were installed in both rooms at Spofford. These are a great improvement over the old ones. There are two chimneys in this building. One was repaired last year and the other one is in need of attention and should be looked after in the near future. A shelf, cupboard and sink have been installed in the advanced room at Spofford. The woodshed roof should be shingled this summer as it is in bad shape. The lack of ample room for a playground is a handicap at Spofford.

Only minor repairs have been made at Chesterfield Village. The building is in good condition.

The chemical toilets purchased a year ago were installed at West Chesterfield last summer. This building is badly in need of new blackboards.

All three buildings are in need of paint.

NEW EQUIPMENT

The wall maps in all the school houses are in bad condition and out of date. They should be replaced by new sets. A good dictionary and a simple set of encyclopediae are very valuable in any classroom. I believe it would be profitable to purchase these books for West Chesterfield and the Advanced room at the other two schools.

REORGANIZATION

Chesterfield is facing a situation in which five teachers are hired to teach pupils which could well be handled by four if the children were all in one locality. There is a possibility of reorganizing to save the salary of one teacher and yet this is a difficult problem. There is also a possibility of reorganizing some of the transportation to eliminate one school team. Your Superintendent and School Board are in search of a salution to this problem but have no definite plan to offer at this time.

This year for the first time Chesterfield schools will keep open for 37 weeks.

I wish to thank the School Board and the teachers for their cordial support.

Respectfully submitted,

WILLIAM SLADE, JR.,
Superintendent of Schools.
